注册接口

POST 121.37.159.230/api/system/user_info

前端传入示例：

```
{
  "nickname":"普普通通",
  "password":123456,
  "email":"123456@qq.com"
}
```

注意，其中nickname，password和email三个字段是必填的。

可选的参数有：

province（省份）,city（城市）,job（工作）

返回示例：

```
{
  "total": 1,
  "rows": [
    {
      "searchValue": **null**,
      "createBy": **null**,
      "createTime": **null**,
      "updateBy": **null**,
      "updateTime": **null**,
      "remark": **null**,
      "params": {},
      "userId": 174028,
      "password": **null**,
      "nickname": "普普通通",
```

```
      "email": "123456@qq.com",
      "about": **null**,
      "job": **null**,
      "province": **null**,
      "city": **null**,
      "views": 0,
      "likes": 0,
      "followers": 0,
      "fans": 0
    }
  ],
  "code": 200,
  "msg": "查询成功"
}
```

登陆接口

POST /system/user_info/search

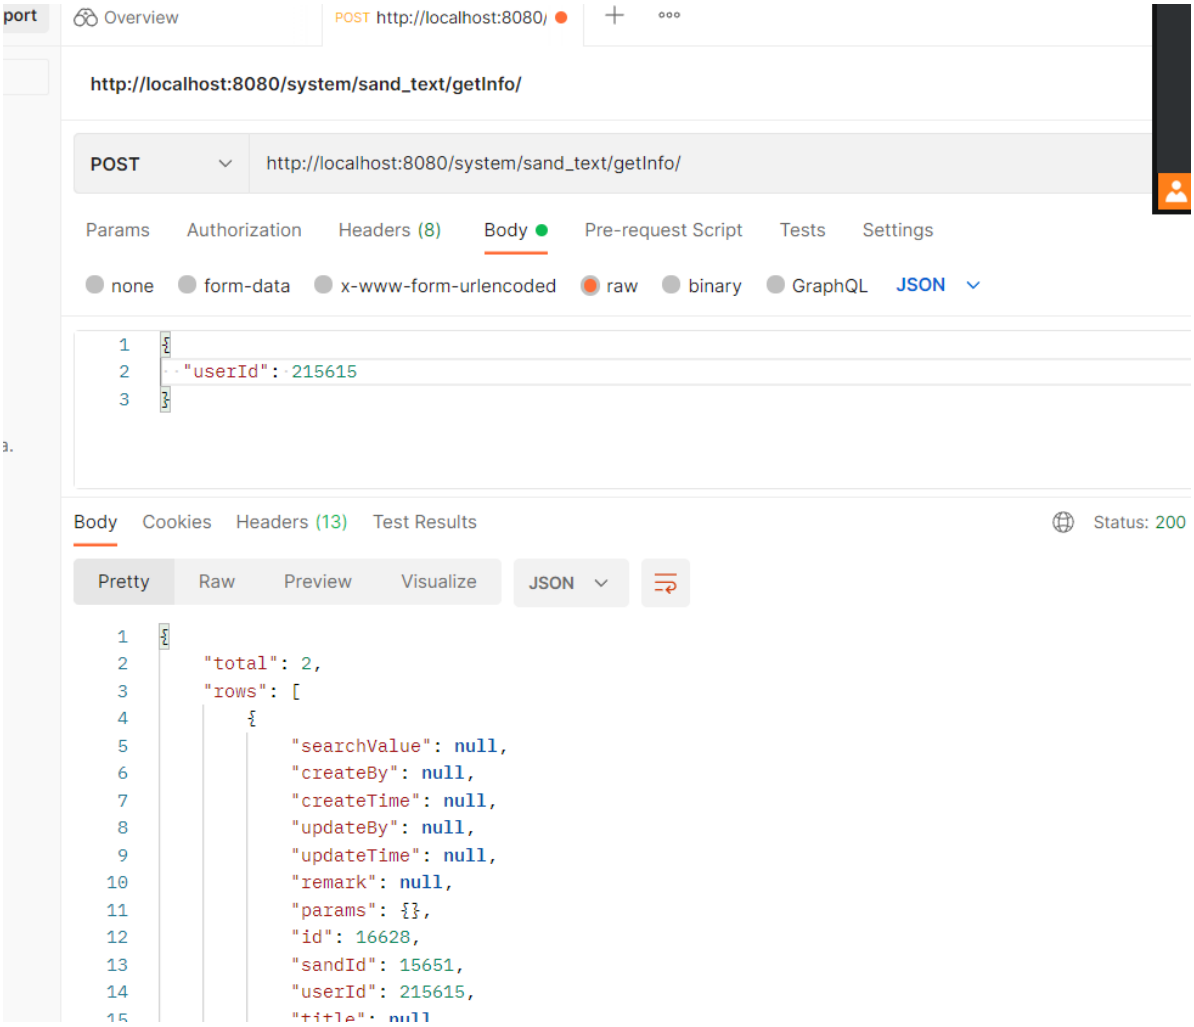
输入格式:

```
{
"email":74116022@qq.com,
"password":"123456"
}
```

后端相应:

```
{
    "total": 1,
    "rows": [
        {
            "searchValue": null,
            "createBy": null,
            "createTime": null,
            "updateBy": null,
            "updateTime": null,
            "remark": null,
```

```
            "params": {},
            "userId": 160264,
            "password": null,
            "nickname": null,
            "email": "74116022@qq.com",
            "about": null,
            "job": null,
            "province": null,
            "city": null,
            "views": 0,
            "likes": 0,
            "followers": 0,
            "fans": 0
        }
    ],
    "code": 200,
    "msg": "查询成功"
}
```

文创查询


POST /system/sand_text/getInfo/
